

The Electrical Association of Philadelphia

Fire Alarm Installation Friday, April 7, 2017

Simplifying Fire Alarm installations: Definitions.....Regulations

Single Family Dwellings.....Multi Family Dwellings.....Commercial Properties

Save money using the right installation methods and pass inspections the first time.

- Do I still have to install a separate Fire Alarm Disconnect switch?
- Why do I need a bottle of red marking liquid on my truck?
- Where does it say I can't put the smoke detector circuit on a dedicated circuit?
- Must I use AFCI protection? GFCI?
- What is meant by "common areas"?
- Do I need a pull station on every landing of a multifamily dwelling unit?
- Is conduit required for all commercial fire alarm installations?
- When is central station reporting required?
- Who knows when I must use plenum FA cable?
- Do I have to destroy a single-family dwelling just to interconnect smoke detectors?
- Are "wireless" smoke detectors permitted yet?

CEUs: 8 hours for Philadelphia, New Jersey and Delaware Contractors
8 hours for PA Electrical Inspectors, 8 PDHs for PA Pes
