Simplifying Fire Alarm Installations: Definitions & Regulations

Single Family Dwellings, Multi Family Dwellings, Commercial Properties - Save money using the right installation methods and pass inspections the first time.

About the Class: The following questions, and more, will be answered: Do I still have to install a fire alarm disconnect switch? Where does it say I can't put the smoke detector circuit on a dedicated circuit? Must I use AFCI protection? GFCI? What is meant by "common areas"? Do I need a pull station on every landing of a multi-family dwelling unit? Is conduit required for all commercial fire alarm installations? When is central station reporting required? Who knows when to use plenum FA cables? Do I have to destroy a single-family dwelling finish just to interconnect smoke detectors? Are wireless smoke detectors permitted yet? These are just a few things discussed in this one-day class.

Date: **Friday, May 10, 2019**
CEUs: 8 for Philadelphia, NJ, DE, and MD Contractors;
5 for Cecil County, MD; 8 for Queen Anne, MD;
8 for PA Electrical Inspectors
