

The Electrical Association of Philadelphia

presents

Principles of Fire Alarms II

Friday, November 8, 2019

You asked for this class, we brought it!

As a follow up to our Fire Alarms I Class, this course will cover the following:

- The different types of fire alarm systems
- Introduction to NFPA 72
- How to apply the code to system designs; where it is required and why
- Different types of buildings and the fire systems best designed for them
- Proper wiring for conventional and addressable fire systems
- Windowless basements
- Troubleshooting fire alarms

This course will also explore different fire alarm plans and will give students an opportunity to plan their own alarm system.

About the Instructor: Jim Craig has been employed with a local fire alarm company since 2004. Mr. Craig has been an Installation Manager since 2010 and is a licensed electrical contractor in the city of Philadelphia and State of New Jersey. He is also a low voltage master electrician in the State of Maryland and Washington D.C.
