Affix Your Index Tabs in Two Easy Steps:

1. Turn to the first page of the index. Slowly remove "Index" tab from sheet and place at the bottom of the page with the black vertical line at the edge of the page.
2. Turn to Annex D and repeat the procedure by aligning the lower horizontal line of the "Annex D" tab with the top horizontal line of the "Index" tab. Repeat the procedure with each tab until you reach the top of the book, then start again at the bottom of the book with the second row.

Remember, tabs hold fast on first contact with the page!
